6. You can choose up to 5 pharmacies to compare. Click [Done]

7. Sort the plans by lowest annual drug deductible + premium cost to view your best options.
8. Now you need to look at your specific PLAN DETAILS of your list.

For each Drug Plan you can see the pharmacies that you selected in your area. You will have a breakdown of:

- Your specific drugs and how much they will cost (monthly) at the different phases of your coverage.
- How each plan categorizes your drugs into tiers.
- How much you can expect to pay for the year.
- Drug Plan annual deductible and a projection of when you will meet that deductible.
- When you will enter the coverage gap/donut hole and when you will exit
- Estimated monthly payments for financial planning.

You can see in this example that you can save money with this plan by using a PREFERRED in-network pharmacy. All plans will be different so check carefully.

The sample medications are on the least expensive tier and therefore are covered at the highest rate. This might not be the case for your medications, so make sure you check the plan details.
9. Once you determine which plan is best for you you can return to search results at the top of the page

10. Click [ENROLL]
